## OPTIONS

### • DMX Controller for RGB

CRL02D3M

3-Channels LED colour-changing controller with remote

- Control the synchronous colour changing system by IRremote control, available operation distance in 5m.
- Synchronous colour changing control system contains 8 various and 15 stationary colour programs (one colour one touch)
- User can self-select the speed, brightness and colour by pressing the button on the remote control.
- Suitable for 4-cord luminaire (+---)
- Use RJ45 signal wire for signal output to expand the range of the control system.
- System expanding is not limited by the quantity of fixture
